### QUALIFICATIONS

- Exceptional ability to use various types of precision measuring and hand-held power tools.
- Basic ability to set-up and operate CNC milling/lathe machines.
- Knowledge of machine capabilities and limitations.
- Knowledge of safe working practices, emergency procedures and possible dangerous situation.
- Excellent ability to organize, plan, and sequence work efficiently.

### EDUCATION

#### NTMA Training Centers, Ontario, CA

Machinist Certificate, November 2011

- **Shop Safety**
- **Conventional Milling machines (Vertical)** Tram in Spindle, Indicate Vise, and use of Tool holder, Collets, End Mills, Cutters, Drills, Reamer, and Fixtures. Tool making and Set-up including 3 Axis Mill Indication
- **Conventional Lathes, Engine Turn OD, Facing, Grooving, Thread Cutting, Cutting Tapers, Knurling, Stock Indication, Calculations, and Polishing. Using 3 Jaw Chuck, Drill Chucks, Grinding Tool Bits, Filing, and Tracer Lathe**
- **Precision Grinding**
- **Saws:** Cutting material to size
- **Introduction to Wire EDM**
- **Use of Hand Tools and Precision Measuring Tools:** OD Micrometer's, Depth Micrometer's, Gauge blocks, Sine bar, Dial Test Indicator, Height Gauge, Optical Comparator (Starrett HE350) etc.
- Blueprint Reading as well as basic layout work from prints
- **Basic Shop Math;** Algebra and Basic Geometry
- **Using hand tools:** Files, pedestal grinders, bench vise, polishing, removing burrs
- **CNC Mill and Lathe:** Set-up, Operate, write and edit basic programs such as Mastercam 9.1

#### San Bernardino Valley College, Colton, CA

June 2008

- CPR Certification

#### Canterbury Career collage, Colton, CA

June 1995

- Medical Assistant Certificate

#### Southeastern High School, Miramar, FL

May 2010

- High School Diploma

### EXPERIENCED

#### Lenx, Riverside ca.

Quality Control Inspector , November 2015 – May 2017

- ☐☐ Performs complete layout inspection by measuring dimensions, such as length, height, and distance, between reference points, using precision instruments such as micrometers, calipers, dial indicator, and CMM, to ensure product meets specifications.
- 
- ☐☐ Able to locate reference point(s) on part and measure dimension such as angle, arc, and radii, using combinations of aids, such as surface plate parallel bars, angle plates, gauge blocks, plug pins, V blocks, sine bars, and precision measuring instruments such as height

gage.

**One Step Workshops, San Bernardino CA  
Clerical, September 2011-June 2013**

- Duties included appointment setting, typing, answering phones, and light cleaning duties.

**Valley Medical, San Bernardino, CA  
Certified Nurse Assistant, June 2000-2010**

- Performed patient care duties such as, bathing, clothing, transporting, feeding, and range of motion.

**Waterman Convalescent Hospital, San Bernardino, CA  
Certified Nurse Assistant, April 1999 – June 2001**

- Performed patient care duties such as, bathing, clothing, transporting, feeding, and range of motion.
