I'm a 41 years old male that has a tons of experience in warehouse, delivery driver, worked at a Railroad for years. I worked outside with any condition, I'm good with hands on and attention to detail. I work hard everyday and like challenges and work well with others. I like to study new things because it educates me and gives me more knowledge to learn things new. If you hire me I'll be the hardest and smartest worker you hired.

## Experience

### Warehouse associate

*Xero shoes-Feel of the world*  
November 2018 - Present

Started with doing customer returns, cleaning products, place back to inventory when it's approved to sale, shipping and receiving also pulling orders for businesses and customers. Drove a 24ft box truck for products to one building to another or delivered to donations businesses. Used pallet jacks and man lift to pick overstock of product goods. I trained new coworkers to show all what all the responsibilities that have to be done. Always make sure to have a clean environment and a safe day.

### Delivery driver/ Load and unload trucks for metal goods

*Zimmerman metals*  
February 2016 - November 2018

Delivered metal good to construction sites around Denver area, also picked up defective products. Loaded and unloaded metal goods off of flatbeds for contractors to pick up. We used Forklifts, propane and diesels type to load different metal products. After products is loaded we use a moving machine to transport it to different areas in the yard. I also have a little experience on spraying different coats of primer for construction contactors.

### Mechanical Service Operator/ Hostler locomotives

*Union Pacific Railroad*  
January 2006 - December 2015

Trained as a locomotive mover for mechanical service facility in Denver. Responsible for switching tracks and unlocking switches. Safety was number 1 in our facility and learned all different types of machinery such as forklifts, overhead cranes, ATVs, man lifts. Trained for all hand signals for locomotive movements and aware of all safety matters and also job briefing with supervisor and Co workers.

## **Delivery driver/ Saw Operator**

*Erickson metals Aluminum distributor*  
/2000 - December 2005

Started as a delivery driver for aluminum goods to businesses from all parts of Colorado. Helped load and Unload truck before daily deliveries. Warehouse pulling orders on tickets, inventory count and receive goods from deliveries from other aluminum companies. Used forklifts and pallet jacks for products. Trained as a band saw operator for different measurements and tolerances of goods. Cutting products off of digital programs for description of aluminum sizes..

## **Education**

### **Student**

*Aurora Central high school*  
1994 - 1997
