Objective

To find a company that will challenge my abilities as a professional. Provide advancement opportunities and support growth in education.

Ability Summary

I am able to operate multiple types of heavy equipment safely and efficient. I have great communication, problem solving, and leadership skills. I am willing and able to perform any task given to me, familiar or not. I can calculate quantities, read job plans and specifications, delegate responsibilities, motivate coworkers, and coordinate with other entities to facilitate production.

Employment History

Finish Blade Operator

04/2017 - 11/2017 Knife River Corp 4875 S Industrial Service Rd, Cheyenne, WY

Read and implement project specifications. Grade slopes/back slopes, side walks, curb and cutter and roadway. Subgrade and finish grade w GPS. Load truck with excavator/loader. Move & stockpile topsoil with a scraper. Roll subgrade/finish grade and several labor duties.

Finish operator

10/2014 - 11/2016 American Civil Constructors 4901 S. Windermere St., Littleton, CO

Check grade, set hubs, line out trucks for material, and finish grade roads with a motor grader. For paving and asphalt. Load trucks with loader and excavator. Stockpile material with haul trucks, grade slopes, with a dozer, blade, or excavator. Labor to help other projects such as survey, plumb pump stations, and help concrete crews saw cut.

Heavy equipment operator

09/2012 - 10/2014 Four Quarters Excavation & 3806 Dell Range Blvd., Cheyenne, WY
Development

Excavation of sewer, storm sewer, and water utilities. Also excavate for home foundations and all utilities. Back fill and grade. Finish blade parking lots with grader.

Heavy equipment operator plant manager.

04/2009 - 09/2012 Willits Co. 1417 W. 6th Ave., Cheyenne, WY

Day to day operation of aggregate crushing. Measure piles, calibrate plant for specific materials, maintain plant operating condition. Coordinate blasts with Wyodot and UP rail. Keep track of tons produced vs tons sold, was deemed the competent person in charge of ensuring MSHA standards were upheld. I would load trucks, feed the plant, and stockpile material. Change jaw and cone liners, change screens and repair screen decks, change conveyour belts and pullies, and run electrical wiring for plant operation.

Education and Training

Completion Date	Issuing Institution	Location	Degree Received	Course of Study
01/2007	Wyoming contractors association	Casper, WY	2 Years of College or a Technical or Vocational School	Operating engineer
	Laramie County Community College	Cheyenne, WY	2 Years of College or a Technical or Vocational School	Business

I have almost enough credits for an associate's degree in business.

Occupational Licenses & Certificates

Certification Title	Issuing Organization	Completion Date
Operating engineer	Wyoming contractors Association	02/01/2007

Honors & Activities

Volunteered at the animal shelter to help build an agility and general activity dog park, and helped build and groom a off road vehicle park and track.

Additional Information

I pride myself on my safety record. As an operator, situational awareness is my #1 priority. Constantly monitoring working conditions, equipment inspections, and being able to problem solve on the spot, has allowed me to maintain a perfect safety record. Communication is imparitve for safe working conditions and standing my ground when I see unsafe practices has made some of my coworkers and bosses frustrated with me but the goal is to excel for the company I work for, provide for my family, and most important go home to them at the end of the day.
