Motor Assembler/ Trainer

Great Plains Industries, Inc - Wichita, KS

September 2014 to July 2017

Motor Assembler Great Plains Industries - Wichita, KS

Responsibilities:

My responsibilities included building and assembling the motor for the fuel transfer pumps from start to finish using hand operated power tools, test stands, and machines needed to complete the task at hand, as well as all of the sub assemblies and attachments to the pumps. Also Maintaining the daily numbers and jobs in order, as well as assuring the tact board is correct to the hour each hour for upper management to view throughout the building, keeping up on maintenance logs on machines in and out of use, logging all failed motors and scrap parts and performing re-order for the parts scrapped, as well as helping to train the new employers that are entering on my side on the assembly line.

Machine Experience Includes:

Baring press

Band splice

Open splice

Lathe

Fuser

Winder

Accomplishments:

I have accomplished and learned many things at GPI such as interpreting prints, drawings and sketches, set up and perform hand and automatic assembly

operations on components, sub-assemblies and assemblies, assemble components with hand and power tools, assessed work for errors or compliance issues and made corrections and modifications when necessary, proposed process improvements to increase quality and efficiency, improved knowledge and productivity through continuous education and learning from senior assemblers, completed and entered quality records, scrap reports and machine logs in a timely manner, determine materials, tools and equipment needed for product orders, and assisted in the lean process of sub assemblies on the Motor Build line.

Skills Used:

My skills at this company have included:

Inventory control procedures, the initiative to work independently, interpretation of blue prints, and drawings, expert in safety rules and operation, strong organizational skills, active listening skills, energetic work attitude, inventory control familiarity, and being an adaptive team player.

Termination Technician

Vermillion Inc - Wichita, KS

January 2001 to June 2004

Responsibilities:

At vermillion my responsibilities included, building wiring harness's for aircraft from lay up wire to termination. I was also in charge of final inspection to final assembly which required blue print interpreting.

Accomplishments:

At Vermillion I passed all training and earned all stamps in strip & crimp, insertion, solder sleeves, lay up, and torque wrenching.

Assistant Manager

Spangles Restaurant - Wichita, KS

June 1996 to December 1999

Manage a crew of up to 10 people. Work in kitchen and front counter maintaining great customer service. I counted drawers beginning and ending shifts along with counting inventory and making deposits.
