Social Security Verification
Score: Pass
Date Completed: 01/Jun/2021

The Social Security Number Verification (SSNV) matches the given SSN against consumer credit files contained in the databases of nationwide credit reporting agencies. The credit bureaus' consumer credit files contain information provided by companies with which the consumer has had financial dealings and/or public record information collected by the bureaus from the courts. The SSNV does not verify that the Social Security Administration issued a specific SSN to a consumer.

Social Security Verification results and Remarks returned from this search are for informational purposes and should not be relied upon as a basis for determining the eligibility of a consumer for credit, insurance, employment or any other product or service, without additional review with and clarification from the consumer.
