Assembled and repaired multiple machines in the paper packing industry, assisted with complete electrical wiring and upgrades from engineer's Solid Works Auto Cad . Ran and tested multiple machines to improve speeds and reliability. Proven success fabricating multiple parts adapted to machines in the industry to include programming UR5 robotics and 3D printing.

Mechanic

Sally Port Global - Doha, QA

September 2009 to August 2011

Serve as supervisor and mechanic supporting United States Air Force operations; lead 14-member international team. Oversee safe and efficient day-to-day operations of mechanics shop; coordinate daily schedules and prioritize repair / maintenance projects to meet client needs. Conduct timely and accurate in-shop and mobile diagnostic assessments and repairs of general purpose and specialty vehicles, including unarmored vehicles. Perform welding, as well as truck and trailer fabrication. Provide regular reports and updates to management.

- Successfully communicate with local national team members with limited English comprehension to keep shop operations running smoothly.
- Expertly fabricate shop equipment to meet strict USAF requirements and codes.
- Improved diagnostic procedures for all late-model vehicles and lead daily quality control of all vehicles.
- Implemented online parts ordering to streamline procurement and ensure necessary supplies.

Kia-certified Technician

GRAND WEST KIA - Grand Junction, CO

January 2008 to May 2009

Returned: 11/13 - 11/15

Performed timely and accurate repairs and maintenance on Kia vehicles, including bumper-to-bumper warranty repairs; specialized in alignment services. Performed OBD2 computer diagnostics. Maintained safe, efficient work practices with complex equipment; collaborated effectively with peers to ensure on-time completion of all work.

- Collaborated closely with United Auctioneers on weekend auctions at dealer site; conducted used car vehicle safety procedures demonstrations with customers and verified vehicles were in working order prior to purchase.
- Demonstrated full mobility and function of heavy equipment sold at auctions on dealer site.

Welder / Builder

Layton Trucks - Colorado Springs, CO
October 2006 to November 2007

Handled flat bed fabrication and installation, as well as service body fabrication and electrical work. Performed VMAC factory installations, crane mounting, and testing. Lengthened and welded truck cabs and chassis per factory guide lines. Crimped hydraulic hoses and fitted to specifications. Ensured full compliance with industry, safety, and company standards.

- Completed training to achieve mandatory Electrical and Hydraulic certificate and Welding Certificate.

Nissan-certified Technician

Nissan - Pueblo, CO
February 2005 to September 2006

Performed a range of warranty and non-warranty repairs on Nissan vehicles; performed OBD2 computer diagnostics. Served as alignment specialist and used car technician.

- Distinguished as first technician nation-wide to perform repairs on Nissan Murano CVT Transmission, including removal and install.
- Successfully re-constructed a Nissan Maxima's front-end after customer collision when all body shops were booked; received high praise from customer for going above-and-beyond.
