OBJECTIVE

My current objective is to establish a firm base with a good job like this one.

JOB HISTORY/DUTIES

customer service

County Fair Food stores
Marshall, MN

Start Date: April 2004 End Date: June 2009

Over the 5 years of employment at County Fair I was able to cover every department needed in that store including grocery, (shift manager) Dairy/frozen, bakery, deli, produce, the meat department, and a majority of the time running service counter. As service counter, my most important duties included supervising front end employees (cashiers and baggers) making break sheets, opening or closing the store, and counting the safe.

Welder assist

Hydroswing doors Inc
Cottonwood, MN

Start Date: March 2009 End Date: September 2012

As a welder assist, my duties were just as stated, assisting welders. I was hired to run the drill press. After half a year, they transferred my position over to being the painter/primer of the completed door frames. I also spent plenty of time running the forklifts, running the band saw, and breaking down the painted door frames, and packaging them for shipment.
