Work Experience

Metal Fabricator

Lumos Custom lighting & fabrication-Denver, CO

December 2023 to Present

- Light Fixture Fabricator
- Metals work
- Blue print reading
- Custom fabrication
- Cut, shaped, bent, welded, and assembled metal pieces using appropriate techniques
- Operated various tools and equipment such as shears, saws, drills, grinders, and welding machines

Ironworker/Welder

Rk Steel LLC-Denver, CO

August 2023 to December 2023

When working for Rk Steel company I was an Iron worker apprentice I would weld overhead beams and set columns by doing this I accomplished how to read blue prints and also get better in fabricating. Also, I learned how to rig cranes I accomplished how to communicate with the crane operator. I also know how to set staircases and weld them. I accomplished getting better in oxyacetylene when steel metal wouldn't fit.
