Star Prairie, WI

wilson_marguerite@yahoo.com - 651-983-7180

I am a highly motivated student seeking opportunities to enhance my healthcare experiences. My future goals include education, fire fighter and, a Paramedic degree.

Authorized to work in the US for any employer

WORK EXPERIENCE

Certified Nursing Assistant

Episcopal Church Homes of Minnesota until I - November 2013 to September 2014

I worked for Episcopal Church Homes of Minnesota until I went on Maternity leave. My job day consisted of working with 15 geriatrics. I would wake them up in the morning and assist with dressing bathing and medication administration. Then I would escort them down from their house to breakfast. I would also do fun activities or spend quality time with them in do what they needed.

Emergency medical technicians

Emergency Medical Technician

St. Paul Fire Station - July 2012 to 2013

I currently work at the fire station to provide nonemergent transport on BLS ambulances 51 and 52. All my work is done with another certified EMT; we switch off between driving and patient care. I enjoy helping patients and making sure they are as comfortable as can be. I talk to all of my patients so that I can learn about them and how to better care for them. I have learned and practiced body substance isolation precautions for many different types of patients.

Package Handler

FEDEX GROUND - Mahtomedi, MN - February 2012 to July 2012

At FedEx I created a strong sense of responsibility and team work. At FedEx we worked as one, and if one part fails then all fails. This taught me how team work is very important. Teamwork skills gained from working at FedEx help me in my EMS career and in life.

HOME MAKER

PCA CRYSTAL CARE - Richfield, MN - March 2008 to July 2009

At Crystal Care I worked as Homemaker/Personal Care Assistant. I worked alone and was responsible for 7 clients. I had a variety of different daily living activities for my different clients. Duties ranged from cooking and cleaning, to bathing and running errands. I enjoyed this job because I had the freedom to drive around the Metro area, and the privilege to go into homes and help those in need.
