Work Experience

Warehouse Worker

Meadow Gold
October 2017 to December 2017

I was a crew member trying out different positions. This job was a temporary job at the time and I completed the job successfully. I also filled in for immediate call-ins. I'm a quick learner and always eager/determined to work. I did some work in line packaging, loading and unloading semis, individual product packaging, stocking shelves, operating machines.

Frame Builder

Clark Enterprises Construction - Eaton, CO
August 2014 to January 2015

I helped frame barns while I was at this company. I learned how to use a nail gun a long with several other mechanical tools. Also how to mark the barn by using fencing posts to mark off the exact location of the barn, planting the posts by using post hole diggers, an auger, or using a shovel to dig a hole, and how to work with metal sheets correctly.

Shift Leader and Cashier

Dairy Queen - Firestone, CO
March 2013 to March 2014

I was a shift leader at this job and did a lot of things at this job. This job was full time and I worked a lot of over time. I got shift leader with-in 6 months of starting this job. I open/closed the store, ran the drive-thru and improved our time, ran the cash register with no issues, food prep, unloaded our order and put it away, inventoried, dropped off the stores deposit to the bank, and did morning paperwork.
