Welder Fabricator

Denver, CO

macthefabricator@gmail.com

+1 707 813 0180

Metal fabricator/welder with 9+ years of experience. I'm very strong with blueprints, and have a technical understanding from both sides. Meaning I've fabricated from prints, and have also made prints to fabricate from. I have a strong fabrication background, operate machines and tools relevant to that field. I've been a shop foreman at a sheet metal shop. Teaching new employees how to weld and fabricate.

Authorized to work in the US for any employer

Work Experience

Welder/Fabricator

Baski - Denver, CO

March 2019 to March 2022

We build and fabricates various weldments. I spent the majority of my time building electric switch boxes from stainless sheet metal. They required tig welding, mig welding, and spray arc welding. They also do underground industrial water valves. I spent a lot of time doing pipe welding using massive turntables and torch cutting pipe.

Foreman Welder/Fabricator

Rachielle Ilc - Orlando, FL

October 2014 to March 2019

Foreman at a small metal shop that specializes in high-end custom sinks. Was responsible for quality of product, as well as training and teaching guys.

I did all the CAD and CAM programming for the entire company. That included a turret punch and a cavalier cnc machine. I was their best welder, and their most knowledgeable fabricator.

I supervised numerous projects in my time there.

Tig Welder/Fabricator/Supervisor

Desert Metal Works - Tucson, AZ

May 2012 to October 2014

Desert Metal is a job shop fabricator. I spent most days Tig welding and polishing stainless steel, although I had to be ready for anything in a given day. I got the opportunity to work on some big sculptures, we made the second largest kinetic sculpture in the world there. As well as some other interesting sculptures that are all over the world now.

I worked myself up to being the nightshift supervisor, so I do have experience managing projects, as well as teaching younger welders. My basic duties included

- Reading and interpreting prints
- Ensuring quality of all parts

- Managing certain projects
- Fabricating/welding

Mig Welder

Gregorys Manufacturing - Fort Madison, IA
February 2009 to May 2012

Production welder position. I spent most days welding from jigs, I would use a whole roll of wire a day here. So I got a ton of Mig welding experience here.

Brake Press Operator

Steel Castings - Fort Madison, IA
July 2009 to November 2011

Operated a brake press, I also spent time grinding steel, and running a steel shot blast.

Education

High School Diploma

Pima Community College - Fort Madison, IA
2002

Skills

- Mig (8 years)
- Tig welding (5 years)
- welding (8 years)
- stainless steel (5 years)
- fabrication (5 years)
- Welder Fabricator
- Sheet Metal
- Press Brake
- CAD (8 years)
- Cnc
- Blueprint Reading
- Micrometer
- CAM Programming
- CNC Programming
- Manufacturing
- Calipers

Certifications and Licenses

D1.1 & D1.6

June 2016 to Present

Structural steel and structural stainless steel certification.

Assessments

Mechanical Skills: Aptitude — Expert

January 2020

Understanding and applying mechanical concepts and processes.

Full results: [Expert](#)

Indeed Assessments provides skills tests that are not indicative of a license or certification, or continued development in any professional field.

Additional Information

Skills

Tig Operates machines relevant to field.

Mig Brake press, roll, sheer, grinder, etc.

Reads blueprints and weld symbols Operates fork truck

Fabrication experience Problem solving skills

Proficient at welding/fabricating Managed small crew

stainless steel, mild steel, aluminum, I'm a good teacher as well.
and Inconel.
