markkidd7+j7n@indeedemail.com - (612) 816-7271 (612)802-5737

Manual Mill and Lathe & CNC Mill and Lathe machinist training at Dunwoody College of Technology.NIMS certified CNC precision machining operations.

Willing to relocate: Anywhere

Authorized to work in the US for any employer

WORK EXPERIENCE

Assembly/Finisher

Express Employment Personal at Dalsin Industries Inc. - Bloomington, MN - April 2015 to Present

Responsibilities

Operations and Setups of Insert, Counter Sinking, Tapping, and Rivet Machines. Panel Bending and Punching Machine. Grinding and Deburring parts.

Use of precision measurement tools and reading blueprints.

Accomplishments

Using my years of experience and my Schooling to make good finish parts.

Skills Used

Work experience and my Schooling

Brake Press Machine Operator/Material Handler/Assembler

Refax inc. - Gary, IN - February 2014 to March 2015

Responsibilities

Operations of 1000 ton bending brake press machines and set-up's,blueprints reading and layout.Material handler,assembling,grinding,saw table and over head crane operations

Accomplishments Building and Repairs and Assembling of transfer train cars.Also fabrication and machining tank building for the steel mills.

Skills Used

Using my work experience and schooling to Working with heavyer material.

CNC Machine Operator/Assembler/Inspection/Tool room

Adkore Staffing at Kurt Manufacturing - Minneapolis, MN - October 2013 to January 2014

Responsibilities

Assembly and disassembly motor parts and inspection of motors using precision measurements tools and pressure testing. Also operations of cnc horizontal cell con mill with fanuc control.And Tool Crib Service.

Accomplishments

Making good finish parts to experimentation.

Skills Used

Using my skills of knowledge of precision machining technology to work.

CNC Machine Operator

Labor All Staffing at j r williams - Minneapolis, MN - October 2011 to October 2013

Responsibilities

CNC mori-seiki and okuma Lathe Operation. set-up's changing chuck and Tool holder,insert changing,tool offset and edit of Program,blueprint reading,and collect SPC data use of CMM and precision measurement tools.Also use of de-durring and cleaning tools on finish parts.

Accomplishments

Being my best at cnc machining operation in manufacturing,and making good finish parts.Using the education training and working experience to grow with a Company.

Skills Used

Knowledge of CNC Precision Machining and measurements

Brake Press Operator/CNC Machine Operator

Areotek Staffing at Spantek - Hopkins, MN - June 2009 to October 2011

Machines operation of CNC Haas and Mazak lathe,insert change,tool offset and set-ups.Also brake press machines operation of uncoil, expander, flattener, slitter, leveler and shear.

*Machines set-ups and adjustments

*Collect SPC data use of CMM Inspection,measurement of finish formed parts using caliper, protractor; micrometers,

checking table and tape measure of parts.

*Operation Production exspaned of steel and aluminium. And Overhead crane Operator and blueprint reading.

Brake Press Operator/Fabrication

Delta Temp. at Tempco - Edina, MN - September 2005 to May 2009

Fabrication of steel and sheet metal finisher use of grinding and deburring tools

*Brake press machinery operation and set-up of bending, drill and punch, shearing, slitter, stamping for steel and sheet metal and aluminium.

*Manually mechanical assembly robot base, basic wiring, blueprint reading

EDUCATION

National Institute for Metalworking Skills

February 2013

CNC Machining and Precision Measurements tools Level 1 Certified in Manufactory Right Skills Now Program Precision Machining Technology

Dunwoody College of Technology - Minneapolis, MN

2012 to 2013

SKILLS

use of de-barring tools,precision measurement tools and overhead crane operation

ADDITIONAL INFORMATION

I have more then 28 yrs.

Operations of Brake Press,Saw Table,Punch,Stamping and Drilling machines and De-durring tools.And 5yrs.Rubber Molding and Plastic Injection Machine Operations.And 5 years of CNC Machine Operation.Also have Education and Certified CNC and Manual Mill and Lathe Machinist,edit tool offset and tool change set-up's and insert changing and G and M code edited of Program,GD & T Symbols,blueprint reading and use of precision measurement tools of finish parts.
