---

## Summary

i am a detail orientated operator that learns very quickly. In the almost 20 years i have never a had difficulty learning or performing the tasks i have been assigned. I have aligned machines, troubleshoot, and repaired and changed all types of machines.

---

## Skills

- Hand tools and machinery
- Machine maintenance and repair
- Machine operation
- [Machine] proficiency
- Experience adjusting machine parts
- Machine lubrication and maintenance
- Machine setups
- Machine alignment
- Machine tool operations

---

## Experience

**Sr Machine Opperator** | Synthes Inc. - Monument, CO | 08/2000 - Current

- Developed and wrote training guides for new machines and maintained existing training guides as needed.
- Run and troubleshoot multiple machines including headers, towas, pointers, lathes, cnc lathes, mills, thread mills, hasagawas, and benders around 100 machines in total.
- I have been a lead four times and was a trainer from 08/07 until 11/08.
- The products that i have made for the last almost 20 years have had to be made to exacting tolerances due to the fact that they are medical implants.

---
