Objective

My goals are to become a machinist 3. I enjoy machining and being able to work hands on learning new skills. All why being a productive employee within the company.

Summary

I have 2 and half years in machining. I worked making medical parts for difderent company such as biomet and Zimmer. I have worked on mutliple types of machines such as Haas mills and lathes, brothers and tsugami Swiss lathe.

Skills and Training

I'm a very fast learner and always willing to learn more. I know tolerances g codes and how to adjust offsets to keep parts in spec. I'm attention to detail orientated with always wanting my oarts to be perfect.

Experience:

- Relius medical
615 wooten rd. #150
Colorado springs, Colorado 80915
Dates of employment: 08/15/2016 - 01/05/2019
- Job Title: machinist 1

- Duties and responsibility: run parts within tolerance and adjusting offsets to keep parts in spec. We had a production system which required a veridant number of parts needing to be produced per day in which my production was never an issue. We kept a clean working environment and safe working practices.
- Graven Austin and Drake
2860 S Circle Dr Suite 220, Colorado Springs, CO 80906
