

Matthew Dobbins

Lakeville, MN

- Email me on Indeed: <http://www.indeed.com/r/Matthew-Dobbins/018aca4c2eb178bc>

I am eager and anxious to get to work and hope to find a hands-on career where I can utilize my talents and skills to eventually become a foreman.

Authorized to work in the US for any employer

Work Experience

Laborer

South Metro Rental - Lakeville, MN

September 2018 to Present

- Rental sale/service
- Equipment operation
- Equipment maintenance
- Haul Equipment
- Vehicle repair/maintenance
- Small engine/equipment repair and maintenance
- Train all new employees (that stick around)
- Oversee a crew of 3 on the weekends
- Maintain shop cleanliness (the best I can)
- Maintain positive attitude and customer interactions
- Problem solve
- Preventative maintenance
- Assist with loading or unloading of ALL equipment coming in or going out
- Dispatch on weekends (if necessary)

Owner/President

Dobby's Custom Workshop

May 2016 to Present

As a custom craftsman, I take a client's vision and make it by hand. The most common products I make and sell are concealment furniture pieces such as coffee tables, armoires, display cases, wall plaques etc. I use a large variety of tools and materials, and attention to detail is an absolute MUST. With every project, my ultimate goal is in meeting the client's deadline while exceeding their expectations.

Lead Technician/Supervisor

Pro-V Refacing - Rosemount, MN

January 2017 to August 2017

Oversight of entire kitchen refacing projects, including daily face-to-face interaction with clients throughout the process to ensure they received EXACTLY what THEY wanted. Supervision of remodel/refacing projects from start to finish, including handling material orders, shipping and receiving, demolition and reconstruction of kitchens, vanities, and many custom cabinetry projects; oversight and direction of other crew members to assigned tasks, utilizing the best of each member's individual abilities while also mentoring and teaching them new and more efficient ways of the process; client

interaction and customer service from start to finish; accurate calculations and knowledge of higher mathematics to ensure projects were completed without any mishaps - financially or cosmetically.

Fabricator/Assembler

Baldwin Supply Company - Minneapolis, MN
March 2013 to October 2016

Main Fabricator - heavy belting, machine operation, quality control, forklift operation, loading/unloading of #15,000+ rolls of conveyor belting from semi trailers.
Consistently met deadlines, cross trained in other conveyor depts, maintained inventory, performed machine maintenance, occasional customer service. Managed Hose Dept.
Daily utilization of skills and abilities including caliper and tape measure reading, heavy lifting, assembly/production, above average math skills

Machine Operator/Grinder

Modern Metals Foundry - Bloomington, MN
September 2009 to October 2013

Quality control, constant heavy lifting 50+lbs, met deadlines, grinding off slag and deburring, attention to detail ensuring castings were not ruined. Very repetitive position, completing thousand of castings per day.
Enjoyed this job and found it to be a fun place to work.

Mechanic

The Car Guys - Bisbee, AZ
April 2005 to December 2009

Started when I was 16 as a shop helper/lube tech. Gained a lot of knowledge and experience over the years that I worked there. Maintained shop vehicles and customer vehicles, ran parts, and helped customers, delivered and picked up vehicles for maintenance, serviced fleet vehicles for U.S. Border Patrol, maintained a clean and organized work area.

Education

High school or equivalent

High School Home Based - Bisbee, AZ
2003 to 2007

Skills

- Mechanically inclined Production/assembly/manufacturing (10+ years)
- Business Management (2 years)
- Motorcycle/ATV/UTV (10+ years)

Certifications and Licenses

Insurance Profucer

November 2016 to November 2018

I studied the entire MN Health care reform and became licensed to sell insurance.
