## Professional Summary

---

Willing and able to work. I have a valid colorado driver's license with a clean mvr. Background is clean. I have a pretty decent gap from my previous job. I stepped away from working so my wife can pursue her degrees to take care of our daughter. Now, that is complete and I'm willing to look forward to starting a new job. Thank you for understanding.

Authorized to work in the US for any employer

## Work Experience

---

### Route Driver Vendor

Dove Vending-Commerce City, CO

February 2018 to October 2022

- As a route driver, my primary responsibility is to give a exceptional service to the customer, as well as handling all merchandise. A very BIG part of this job is to handle, all customer complaints or inquiries. Working independently, my face is what everybody sees, being my own boss on the road is one greatest freedoms any one job can offer. I handle everything from money, time management, and even customer inquiries. We're also technicians as well, performing maintenance or repairs on machine's, as needed. Correct inventory is a must. Everything is logged, so everything is accounted for! Again, the number 1 goal is to make sure the customer is fully happy and taken care of!

- Former employer Stater Bros Markets from 08/07/06-07/05/17

As the night crew supervisor, it was my job to ensure safety of all employee's, including the safe keeping of the store or any assets involved with the company. My job was to stock shelves, direct anybody that needed direction & furthermore always going above & beyond to better serve the customer in question. Money, (cash) management was one of my pet peeves of the job. I always double checked to make sure my cash was accounted for, never short changed! Self-discipline & management is key to successfully, completing any job! I'm a self motivator & I'm always willing to learn thing's!

## Additional Information

---

I do have a big gap in my employment status. Understand, I haven't worked, because I've been attending to my family's needs. If anyone is willing to give me a chance, you won't regret it!
