

Matthew Martel

Objective

- To grow in my skillset in the machining/manufacturing trade. Focus on producing quality work, while acquiring a deeper knowledge of the machines I am operating and how the function, along with the code needed to produce the part(s). To integrate my ability to work well with others, to create a finished product that will exceed the customer/clients expectations in quality. Pass the knowledge of the trade along to the next eager individual, like myself, to be able to grow and perfect the trade for the future.

Experience

11/2013 - Present

Sadlak Innovative Design Co

Coventry, Ct.

CNC Operator

- Working on multiple CNC/milling machines in the machine shop from Matsuura 800, HAAS VF-4, Supermax 3 Axis Vertical mill(s).
- Learned the different machining areas, and machines in the production of the manufacturers' main selling product of the AR-15/M4 Gas Block.
- Learning how to set tool and diameter offsets to acquire the desired tolerance on the specific part im working on.
- Changing worn out and broken tools/inserts, and setting heights where applied (Endmills, Drills, Reamers)

Swiss Lathe Operator

- Operator of KNC-32 II and Citizen L-16.
- Was taught how to change guide bushing and how to adjust to certain kinds of stock (ground, unground)
- Learned some basic MDI machine, spindle indexing/lock functions.
- Modified offsets for drills, taps, depth of turning and facing inserts.
- Learned how to set spring taps

Premier Foundations

Branford, Ct.

Laborer/Panel Set-Up

- Set up and pour footings for foundation walls to be built on.
- Selected the appropriate panel size and length for the job at hand.
- Read and set transit to shoot heights of footings, walls and slabs to insure an even concrete pour.
- Setting up and bracing 4' or 8' foundation walls and pouring.
- Removing and cleaning the concrete panels after walls/footings/slabs were poured and had cured for 10+ hours

09/2011 – 09/2013

Barron's Home Improvements

Branford, Ct.

Laborer/General Construction Worker

- Painting and finishing interior walls.
 - Sheet rocking, taping and Painting.
 - Exterior block walls, and masonry re-pointing had been done while employed.
 - Some basic plumbing and electrical.
-

Matthew Martel

09/2010 – 09/2010

Martel Masonry

North Branford, Ct.

Self-employed Mason

- Chimney re-pointing (stone & brick) from basic grinding and re-grouting, to knock down to, and past the roof line and re-flash/re-build.
- Building stone walls from contemporary styles to custom builds for clients.
- Laying out and setting base for dry and wet flagstone walkways and patios.
- Modifying chimneys and exteriors with custom Thin and cultured stone veneers.
- Sealing and blending old masonry with stucco coats for nice a nice aesthetically pleasing finish

Education

1993 -1997

Tolland High School

Tolland, Ct.

High School Diploma
