Willing to relocate: Anywhere

Authorized to work in the US for any employer

Work Experience

Machinist I

Rosemount DP Flow - Boulder, CO

August 2011 to October 2018

Machinist I

Machine parts to specifications, using machine tools, such as lathes and milling machines to meet tight tolerances.

Calculate dimensions or tolerances, using instruments such as micrometers, calipers and gage pins.

Study blueprints, drawings, or engineering information to determine methods or sequences of operations needed to fabricate products.

Separate scrap waste and related materials for reuse, recycling, or disposal.

Assembler

Bead blasted O-Plates to clean up imperfections and make presentable for delivery

Assembled valves and plugs on O-Plates and sent to shipping department

Used Oracle to move jobs through the system

Maintenance Technician/Shipping Technician

Metal Sales - Frederick, CO

February 2011 to August 2011

Maintenance Technician

Performed routine machine maintenance while maintaining safe work practices

Built racks to hold various types of sheet metal

Performed maintenance on company work vehicles

Shipping Technician

Used saws to cut wood to specified length to build crates.

Once crates were built, used forklift or sideloader to move crates to storage area

Assembler

Rosemount DP Flow - Boulder, CO

September 2008 to September 2009

Bead blasted Annubars to clean up imperfections and make presentable for delivery

Sorted material for welders to fabricate

Assembled Flowmeters and delivered to Final inspection

Inspected welds for defects such as undercut, porosity, slag and incomplete penetration

Education

Associate of Applied Science in Automotive Technology

Lincoln College of Technology - Denver, CO

February 2011

High School Diploma

Skyline High School - Longmont, CO

May 2007

Skills

BLUEPRINT, BLUEPRINT READING, ORACLE, MS OFFICE, TEAM PLAYER
