7637620880

career driven person looking to expand my career in the warehouse, production, and the assembly field. Smart, strong individual. Incredibly quick learner with a desire to be used to my full potential. looking for a company that promotes from within. I also have incredibly strong, strict, and impeccable work ethic.

Authorized to work in the US for any employer

Work Experience

Oven Operator

TreeHouse Foods - Fridley, MN
November 2019 to Present

Responsible for setting up/shutting down oven line. Responsible for keeping oven running, fixing any errors on the line such as resetting or restarting equipment, quality checks on product, and hourly paperwork and safety checks

Tool Room Technician

Water Gremlin Company
June 2019 to Present

I am currently responsible for taking apart dye cast molds, changing them over, cleaning them and putting them back together to make leadvbased parts for battery terminals and fishing sinkers

CNC Machine Operator

Wilbert Plastic Services - White Bear Lake, MN
June 2018 to June 2019

I am currently responsible for operating CNC machines that make products for many different companies. I am responsible for inspecting the parts for defects, reviewing work instructions to identify any mistakes in them, also do bi-hourly paperwork on the parts to make sure they are up to standard, and packing the parts for shipping. During my employment here, I have also worked as an operator on the extrusion like, and I also do quality inspections on customer products before they're shipped.

Machine Operator

Indrotec - Anoka, MN
May 2016 to May 2018

I worked as a machine operator at a plastic injection molding company. I was responsible for running the press, and inspecting and packing parts as well as making shipping labels. This was a job that was

also done in a clean room, so I have experience and understand the strict conditions for working in a clean room.

Warehouse Worker

SMX StaffManagement - Anoka, MN
June 2015 to May 2016

I was responsible for picking parts off the warehouse floor for an assembly line.

Material Handler/Machine Operator

Lakeland Tool & Engineering - Anoka, MN
May 2014 to June 2015

Responsible for heating and drying material, as well as loading into machines for a job. Also worked as a machine operator on injection molding CNC machines. And also prepared parts for shipping.

Assistant Manager

Super America - Anoka, MN
February 2013 to January 2014

Responsible for making schedules, submitting hours for payroll, handling paperwork for shift change handling money and safe drops for a shift change, handling employee and customer complaints, and also Promotional and disciplinary actions of employees
