### WORK EXPERIENCE

#### **CNC Lathe/Set-up Operator**

P&G STEEL PRODUCTS - CHEEKTAWAGA - 2013-01 - Present

##### Responsibilities

Responsibilities were to machine parts with CNC Lathe called the Hyundai Kia and Samsung as well as milling parts on a Haas. Also responsible for changing tools, offsetting, using different gages, such as the indicator, OD boss, ring gage, CMM, calipers, micrometers and overall visual inspections to ensure customer receives quality parts. After final inspections, parts are then recorded on an hourly basis and documented for auditing purposes. Also responsible for packing inspected parts.

##### Accomplishments

My accomplishments are to finish school in regards to becoming a Certified CNC LATHE OPERATOR, as well as learning the programming part of it also I've learned to do offsetting tool changing and some programming and also I've learned to read some blueprints as well

##### Skills Used

The skills I learned are to read blueprints, change tools, offset machine, milling and use of different gages, as well as spec, dimensions, and tolerance

#### **Machine Operator**

Stryker Medical - Orchard Park, NY - 2010-03 - 2013-01

Responsible for preparing chemicals to make gel to be poured into machine to be molded and cut. Also responsible for setup of machinery and minor troubleshooting to ensure machine runs accurate and efficient and to also make sure product meets customer satisfaction by checking product with use of measurements and making sure product is within tolerance and spec as well as visual inspection

#### **Grinding operator/Material Handler**

Tyson Foods Incorporated - Buffalo, NY - 1998-08 - 2010-10

Responsibilities included the processing of large quantities of meat products with utilizing a grinder model 500HD, also responsible for maintaining proper weights, temperatures, and quality of products with use of different gauges, scales, maintaining that product meets customer satisfaction by ensuring it meets FDA standard. Also responsible for setup of grinder, minor troubleshooting and inspection of product

### ADDITIONAL INFORMATION

Attended John Marshall High in Chicago, Illinois where I obtained my GED in 1986
