## Work Experience

---

### **Aerospace CNC Machinist / Programmer**

Reyco Precision Machining - Englewood, CO

June 2017 to Present

My job was to program parts using Mastercam, and setup and run both programs I have made or that were previously made. I have experience with all types of material from Aluminum, Steel, Inconel, G10, Phenolic, and even 3D printed castings. I worked in an Aerospace shop so I'm used to working in very tight tolerances. I have also had experience in using different sideline machines such as Hem and band saws, tool grinding for relieving, and a honing machine.

## Education

---

### **High school diploma**

## Skills

---

- CNC milling machine (4 years)
- CNC programming (3 years)
- Tooling (4 years)
