Work Experience

Warehouse Technician

Procter & Gamble - Vandalia, OH

March 2017 to Present

I drive a stand up forklift and i supply several production lines with the material and product they need for various assembly projects. I am a quadrant leader and a subject matter expert in my area. A quadrant leader is a forklift driver who over sees a small team of their peers. Parts of this title include; assigning team members to certain jobs or tasks to better fit the flow of production. With this title, i report to the manager directly but the rest of the team reports to me for things such as, call ins, or any troubles they may have throughout the day. A subject matter expert or SME for short is a title given to someone who not only knows advanced systematic functions but does them well enough to train any and all new hires.

Line Loader

Rittal Corp Urbana Ohio - Urbana, OH

September 2014 to October 2015

Load and unload parts from paint line. Scan in and read orders, adjust electronic paint routes on the computer to fit order. Unload parts and stack them in carts or on pallets and sign off on paper work for further assembly. I also had material handling training with a standard pallet jack and electronic pallet jack.

Mold Machine Operator

Marshall plastics - Urbana, OH

February 2014 to August 2014

Ran and operated one or more plastic bottle molds according to order. Inspect and pack bottles into custom containers. sign off on shipping papers, and load trucks with a pallet jack.

Inspector/ Material handler

Thirty-one gifts - Springfield, OH

October 2013 to December 2013

I distributed work on the floor to the monogrammers and inspectors with carts or pallet jacks. I would Inspect the quality of the items we distributed.
