Experience

Painter

Nov 2017— Current

Dent Wizard — Aurora, CO

- Sand body areas to be painted and cover bumpers, windows, and trim with masking tape or paper to protect them from the paint.
- Follow supervisors' instructions as to which parts to restore or replace and how much time the job should take.
- Review damage reports, prepare or review repair cost estimates, and plan work to be performed.
- Inspect repaired vehicles for proper functioning, completion of work, dimensional accuracy, and overall appearance of paint job, and test drive vehicles to ensure proper alignment and handling.

Painter

May 2015— Oct 2017

Cox Automotive — Aurora, CO

- Prime and paint repaired surfaces, using paint sprayguns and motorized sanders.
- Remove damaged sections of vehicles using metal-cutting guns, air grinders and wrenches, and install replacement parts using wrenches or welding equipment.
- Fill small dents that cannot be worked out with plastic or solder.
- File, grind, sand and smooth filled or repaired surfaces, using power tools and hand tools.
- Cut and tape plastic separating film to outside repair areas to avoid damaging surrounding surfaces during repair procedure, and remove tape and wash surfaces after repairs are complete.

Painter

Jun 2008— Jun 2015

Rocky Mountain Paint and Body — Colorado Springs, CO

- Review damage reports, prepare or review repair cost estimates, and plan work to be performed.
- Inspect repaired vehicles for proper functioning, completion of work, dimensional accuracy, and overall appearance of paint job, and test drive vehicles to ensure proper alignment and handling.
- Sand body areas to be painted and cover bumpers, windows, and trim with masking tape or paper to protect them from the paint.
- Prime and paint repaired surfaces, using paint sprayguns and motorized sanders.
- Remove damaged sections of vehicles using metal-cutting guns, air grinders and

wrenches, and install replacement parts using wrenches or welding equipment.

- Fit and secure windows, vinyl roofs, and metal trim to vehicle bodies, using caulking guns, adhesive brushes, and mallets.
- Remove damaged panels, and identify the family and properties of the plastic used on a vehicle.
