6517280277

I am looking to obtain a long-term challenging position where I can enhance my skills and knowledge.

Work Experience

Drum Operator

Twin City Tanning - Saint Paul, MN

July 2017 to July 2018

Follow Wet Blue tanning process sheet; maintain correct temperatures of tan drum, add correct amount of chemicals, maintain correct Ph levels, take sample cuts of hides throughout process to ensure quality hides.

Sandblaster, heat treater, quencher, bencher, permold machine, hand pouring aluminum, quality control etc.

Carley Foundry - Blaine, MN

September 2013 to June 2017

Job duties consisted of: sandblasting, grinding, cleaned castings with hand tools, heat-treated / then quenched aluminum castings, operated heavy machinery, read weld charts, quality control inspections; along with logging lot number data for tracking purposes, operated forklift and other equipment as needed.

Lead Shipping and Receiving

Pier Foundry - Saint Paul, MN

February 2011 to April 2013

Weighed and counted castings before shipping out. Microsoft programs are utilized to log data for shipping and receiving department, quality inspections of packages; in and out of docks. I was able to operate forklift and other equipment as needed.

Order Picker

RJ Schinner - Oakdale, MN

May 2006 to October 2010

Job duties consisted of: selecting, picking, and palletized orders in warehouse with RF Scan gun, operated forklift to load and unload pallets from trucks, utilized the Eclipse program to enter data. I worked as an inventory control assessor; helped customers pick up orders from will call and resolved escalated issues deriving from incorrect orders.
