

Michael Grigsby

Welder

Aurora, CO 80010

michaelgrigs@gmail.com

970-313-8266

Seeking a permanent welding position.

Work Experience

Custom Fabricator

Flame Designz - Denver, CO

June 2018 to September 2018

Fabrication, installation, and repair of several custom projects taken on by Flame Designz. Measuring, cutting, fitting up, welding, problem solving, sometimes designing products, specialising in custom outdoor fire pits. Handling materials with forklift. Working safely with a small team and minimal supervision.

Welder

Wagner Cat - Aurora, CO

February 2018 to June 2018

Upgrade heavy equipment, and repaired if it was damaged.

Used line boring equipment, welding, cutting tools, and a hydraulic press, to straighten out and repair equipment. I purchased several tools both air and electrical powered, that

are used for breaking down and reassembling equipment. Handled heavy materials often with use of overhead crane and forklift. Completed a osha 10 hr course for my 2nd time, and was recertified for operating forklifts

Pipe Welder

Elkhorn Construction - Mead, CO

June 2017 to December 2017

6g pipe welder, Welding pipes and fittings of various schedules and sizes, in all positions, while passing 100% x-ray mandatory, responsible for rigging and lifting heavy materials, and holding a perfect record in safety.

Welder 3

Leed Fabrication - Loveland, CO

September 2010 to June 2017

Welding, cutting, grinding, layout, fitting, reading and understanding blueprints, Repairs, and field fit 6G welds for several different components on high pressure vessels using ASME guidelines. Forklift certified, responsible for rigging and lifting heavy materials. Was member of the safety comity, with a perfect safety record.

Knocker

Shackler, JBS - Greeley, CO
2009 to 2010

Controlled hydraulic pressure machinery. Worked in dangerous environment safely.

Lead Person

Cargill - Friona, TX
May 2006 to 2009

Responsible for numerous jobs on the production line. Works in physically demanding environment with an outstanding record of safety.

Education

Ged

Clovis Community College - Clovis, NM

Certified welder in Trade

Clovis Community College - Clovis, NM

Skills

Welding

Certifications/Licenses

6g

Taken and passed 6g pipe tests twice

Forklift Certified

Have been forklift certified twice

OSHA 10

Have taken the osha 10hr twice

Additional Information

7 years fabricating and repairing high pressure vessels in ASME code shop, using hard wire, stick, and flux core welding process in all positions including 6g also used spool gun to weld aluminum. Knowledge of basic blueprint drawings and weld symbols, with ability to layout and fit up work. Proficient with job related tools such as plasma, oxy-fuel gas, and air arc cutting, grinders, saws, overhead cranes, forklift and ect. Excellent work ethic, emphasis on safety, quality, and attention to detail. Successfully completed the Osha 10 hr twice, and trained in lockout tagout. Worked full-time while attending Clovis Community College welding program.
