Work Experience

Machine Operator

Supervac, Mingo mfg

January 2012 to January 2018

SuperVac Mfg. (Fort Collins, Co)

Sheet metal fabrication and assembly of fire truck paneling and other manufactured fire equipment. Fabrication duties included shearing, pressbrakes, punches, various rollers and lock formers, and spot-welding. Typical materials used were aluminum and cold rolled and occasional stainless steel. Mostly 16-22 gauge. Duties also included mig welding sheetmetal, angle, tubing, flat-bar, and plate.

Dynamic Design (Niwot, Co.)

Setup and ran various machines for fabrication of oil & gas field and aerospace parts. Responsible for set up and running cnc press break, and hydraulic press. Ensure quality on measurements and dimensions up to allowed tolerance, and also ensure aesthetic quality up to customers standards.

Mingo Mfg. (Owasso, Ok.)

Ran various manual machines such as lathe, vertical and horizontal mill, shaft HOB, precision hone, and broach. Read and interpret cad blue prints. Machined gas and oil field parts such as couplings, shafts, housings, and gas separators. Worked with all types of materials such as monel, nitronic, inconel, stainless, and carbon steel. Measure parts with various types of calipers, mics, and gauges to ensure parts are within the allowed tolerance given on the blueprint.

Shoemaker Mechanical (Tulsa, Ok.)

Fabricate and install commercial and residential duct work, vent hoods, and other various custom sheet metal and steel parts such as suspended platforms, stairs, and hand rails. Ran various machines such as plasma table, shears, press-brake, hand brake, tubing rollers, chop saw, band saw, and lock formers.

Hard Rock Hotel Casino (Tulsa, Ok)

Facility Maintenance Dept.- Complete scheduled work orders and emergency repairs for hotel rooms, kitchens, and casino floor. Plumbing leaks, clearing stopped up drains/toilets, maintain move and replumb kitchen equipment. Repair sheetrock damages around the grounds. Routinely check and change light bulbs and ballast. Repair and replace old tile and flooring.

Zieglers Church Supply (Tulsa, Ok.)

Shipping/Receiving dept.- Filled, packaged, and shipped warehouse orders. Accurately found most cost effective carriers and means of transport to ensure products arrived damage free and by customer

deadlines. Also kept accurate count on products received and shipped to ensure the systems count was constantly up to date and accurate.

Education

Memorial High School Tulsa
2005

geology

Fort Lewis College Durango, Co

Skills

band saw, blueprints., calipers, Confident, Hand Tools

Certifications/Licenses

Driver's License

Additional Information

SKILLS Machines- Confident in set ups and running various machines plasma table, shears, press-brake, hand brake, tubing rollers, chop saw, band saw, lathe, vertical and horizontal mill, shaft HOB, precision hone, and broach. I can use all forklifts/manlifts stand up and sit down.

Measurements- Confident in taking measurements with tape, calipers, scales, various mic's, and gauges. Can also read and interpret blueprints.

Hand Tools- Confident and knowledgeable with all sizes and uses for different hand tools. Know when and what to use for each situation.
