

Michael Huspeni

1165 Paris Ave N
Stillwater MN 55082

(612) 225 – 7300 (c)
huspomike@yahoo.com

Objective

Manufacturing work in Eastern half of TC area. East of Mississippi River preferred.

Experience

Andersen Windows & Doors

Bayport MN 55003
Manufacturing Associate
August 2014 – October 2020

- Milled wooden pieces after they were vinyl-coated
- Alternately, I might take part in the vinyl-coating or vinyl production
- Working the mill was a circus of independent acts. Identify defects on-the-fly, count drilled holes, stack pieces in precise fitting scheme.
- Drilled holes could be problematic. Because the mill held 4 different drills, 4 times the outages seemed to occur. Simple defects such as sheared drill bit needed specialized mechanic to repair or replace.
- Overtime needs met constantly and consistently.

Fedex Ground

Mahtomedi MN 55110
Package Handler
May 2003 – July 2011

- Loaded delivery trucks with sorted packages every morning.
- Not as simple as it sounds. Trucks would fill up during shift. Also, unwieldy items like lamps and couches showed up out of the semi at very last.
- Coordination with truck drivers, who made their appearance at end of our shift.

Federal Aviation

Administration

Farmington MN 55024
Air Traffic Controller
January 1991 – September 2000

- Separated live flights.
- Speeds and weather were critical items. Constant math on instantaneous basis needed.
- Daily weather briefs were optional. But those who cared would line up and listen.
- 1948-era equipment was gradually replaced. Plenty of working hours devoted to mechanics working behind our screens
- Overtime needs met consistently. Union a strong force; seniority a factor.

Education

NEI College of Technology

Columbia Heights 55421
September 2000 – May 2002

- Associates Degree earned: Information Management Systems.
- Also known as Database Design
- GPA 3.96
- Suitable software mastered. Microsoft Excel, Wolfram Mathematica, SQL server, many others..

University of Minnesota

Minneapolis 55414
September 1985 – May 1988

- Starting degree chosen: mathematics and physics
- GPA 2.98
- did not graduate.
