## Objective

I want to find a career. A place I can retire from. I want to be able to work my way up on my own merit. I would like to work somewhere where my 22 years of experience will benefit the company as well as myself.

## Abilities

Started out in bindery and worked many machines. After a couple of years moved to the press room as a small press operator on a sheet fed press. From there I moved to a 40" 4 color Kamori. Then became a web press operator started on a 4 color Manrolin. Then I moved onto an 8 color Goss Sunday press. I have a total of 20+ years in bindery, pre press, press, and post press production.

## Employment History

### Brake Press Operator/Assembly

03/2019 - 06/2019                      C&W Manufacturing                      6933 SHELMOR RD., ALVARADO, TX

Assembling industrial air filters, reading work orders, quality check on assembled products, electrical wiring, programming

### Roll tender/ Second pressman

08/2016 - 02/2017                      Quad Graphics                      6801 S. SUNNYLANE RD., OKLAHOMA CITY, OK

Roll tending and production to include running a multimillion dollar 4 story high press (Goss Sunday) completing multi million dollar accounts such as TIME magazine, sports illustrated, US Weekly. Managing press operations and helpers. Started as 2nd pressman and was training to run my own press as first pressman.

### 1st Pressman

07/2008 - 07/2010                      Wyoming Tribune Eagle                      702 W. LINCOLNWAY, CHEYENNE, WY

Production to include 4 story Manrolin, operations, roll tending, folder operations, web press, quiet room operations, quality control, plate production, managing second pressman and helpers.

### 1st pressman

01/1989 - 07/2007                      Juniper valley print shop                      Canon city, CO

Started in bindery doing perfect binding, Rossback, cutter, saddle stitch, collating, folder, drill punch. From there I went to a small sheet fed press AB Dick 360 then AB Dick 9810 then 9890. From there I went to a two tower Ryobi 9901. To include 4 color build and register board. Also ran a 40" Komori with coater, dryer, powder (\$2.7 million press).
