
MICHAEL ORTEGA

PROFILE

I am a highly motivated 26-year-old young man, which enjoys working hard in a team-oriented environment. I am a natural leader and enjoy working with my hands. I graduated in the top 5% of my class in high school and played basketball for 4 years and volunteered at my local church as a youth mentor.

EXPERIENCE

UNION PACIFIC RAILROAD – 2012-PRESENT

As a MSO (Mechanical Service Operator)/ Hostler my main responsibilities are: Maintaining the operational functionality of the shop as well as various heavy-duty machinery and equipment; positioning locomotives and building trains for departures.

A Hostler is a certified Locomotive operator and mover.

I perform many various duties in my job that require me to be certified and trained in OSHA standardized regulations.

WL CONTRACTORS – 2011- 2012

As a Maintenance and Signal Technician my main responsibilities included: general maintenance on all Denver Metro traffic lights, to include installing new traffic light systems as well as removing/uninstalling old or down systems.

During my time at WLC I took various scholastic instruction courses on basics electrician courses, and basic engineering.

SEPTODONT – 2018-PRESENT

As a Compounder my duties are to follow the SOP to create various compounded material for pharmaceutical use. I am responsible to follow defined manufacturing procedures, read basic chemical and hazard information. I am required to use computers, chemical scanners, and various technologies to create and test compounds. The following is a list of various tasks and duties I am required to perform: select and weigh product; use time, temperature and speed controls to blend ingredients; use proper PPE such as hair net, shmuck, latex gloves, safety glasses, respirator and steel toe boots.

TITAN FITTINGS – 2018-2019

As a Hose Assembler my main duties were to take hydrolic fittings and adapters and crimp them onto the various hoses, both commercial and industrial. Pressure test all hoses once fitted to ensure stability and quality.

As a Sales Rep I worked in the front office and was required to have knowledge on all of our products, such as all the variations of specs and sizes for all of our fittings and hoses. Some of my other tasks included: face to face and over the phone sales quoting; creating invoices; as well as general office duties.

EDUCATION

ALAMEDA HIGH SCHOOL – DIPLOMA - 2011

Graduated in top 5% of my graduating class and participated in various extra curriculat activities such as: Basketball, Baseball, Men's Choir, and debate team.
