- Pipe laying, RCP, PVC, iron ductile
- Knowledge of pipe laser
- Shooting grade
- Trenchbox safety
- Operated heavy equipment, front end loader, roller, skid steer
- Pipe rigging
- Topman skills
- Use of tampering compaction equipment

SUMMARY

Offering solid foundation in the warehouse industry or construction field and in manual labor, eager to develop skills in the warehouse and construction field. I bring the ability to learn and apply proper warehouse and Construction techniques and safety protocols. Ready to use and develop problem-solving and teamwork skills in a warehouse or construction position. Dedicated warehouse and construction team member who is forklift certified and skilled in operating equipment such as forklift, pallet jacks and cherry picker as well as heavy equipment front end loader, roller, and skid steer, prioritizing tasks, and carrying out fast-paced work to meet team goals. Strong understanding of OSHA standards and optimal safety guidelines. Hard worker consistently completes deadline-oriented tasks.

PROFESSIONAL EXPERIENCE

FREIGHT LEAD/ WAREHOUSE

Highland Cabinetry . Aurora, Colorado | August 2024 - present

I make sure that all the product on the invoice is accounted for and that it's strapped and wrapped and ready to be shipped.

I collaborate with sales representatives and customers to make sure that shipments are sent and delivered on time.

I am forklift certified and I offload the product coming into the warehouse and make sure that it's accounted for and put in its proper place.

I build a wide variety of Euro style cabinets as well as modified cabinets.

Reduced shipping errors by consistently maintaining accurate documentation for all transported product/cabinets.

CABLE PULLER / GENERAL LABOR

Dre Con. Brighton, Colorado | March 2016 - October 2021

Assisted in pulling fiber optic cable through walls and ceilings at IBM.

Assisted team members with tasks that require group effort.

Loaded, unloaded, and moved material to and from storage and production areas.

Increased productivity with effective communication and collaboration among team members.

Demonstrated strong work ethic, completing physically demanding tasks under varying conditions.

PIPE LAYER/ GENERAL LABOR

Plat Rodgers. Lakewood, Colorado | July 2014 - November 2015

Installed various types of pipes, including PVC, concrete, and metal, ensuring efficient water and waste flow for municipal projects.

Used hand signals to direct equipment operators and alert to hazards.

Assembled and installed underground pipe, fittings, and valves of various sizes.

Optimized water flow in residential areas with precise installation of sewage and drainage pipes.

Utilized heavy machinery, such as excavators and backhoes, for trench digging while minimizing impact on surrounding areas.

Displayed adaptability by seamlessly transitioning between various types of pipe materials, including PVC, steel, and concrete pipes.

ON-SITE MAINTENANCE/GENERAL LABOR

Big D Construction . Salt Lake City, Utah | March 2012 - May 2014

Served as a reliable point-person for responding quickly to urgent maintenance requests during weekends or after-hours, ensuring timely resolution of issues.

Enhanced productivity by proactively identifying potential problems and implementing preventive measures.

Inspected, evaluated electrical and mechanical systems and components.

Worked closely with supervisors to address any identified issues or concerns regarding the condition of the data center.

Managed multiple simultaneous projects while consistently meeting deadlines and maintaining high-quality standards.

Ensured compliance with company policies, safety regulations, and industry best practices during all on-site activities.

Identified potential issues and proactively addressed them, preventing costly repairs and downtime.

- Backfill understanding
- Manhole setting
- Understanding back compaction testing
- Knowledge of hand tools
- Teamwork settings
- Hand signals to heavy equipment operators
- Traffic control
- Residential construction
- Grounds Maintenance

PIPE LAYER /GENERAL LABOR

Local 295. Salt lake City, Utah | March 2006 - January 2012

Ensured optimal pipe alignment and connection, preventing future leaks and infrastructure issues. Displayed adaptability by seamlessly transitioning between various types of pipe materials, including PVC, steel, and concrete pipes. Used equipment such as rollers, and front-end loaders to move important supplies. Graded or leveled trench bases using tamping machines or hand tools. Ensured accurate pipe placements, utilizing measuring instruments such as lasers, grade rods, or transit levels effectively. Signaled equipment operators to align machinery. Supported team productivity by assisting with excavation, trenching, and backfilling activities as needed. Demonstrated strong problem-solving abilities by addressing unexpected complications during pipe installation processes. Improved project efficiency by accurately measuring, cutting, and joining pipes for various construction projects. Installed and repaired wet and dry utility pipe, sanitary and storm water sewer structures and pipe systems. Moved pipe into trenches and layered pipe in trenches to help initial backfill. Collaborated with utility companies to identify locations of existing underground infrastructure, preventing damage during excavation process. Operated heavy machinery for backfilling purposes while maintaining exceptional safety standards.

EDUCATION

WAREHOUSE OPERATION, GED, HIGH SCHOOL DIPLOMA

Trapper Creek Job corps. Darby ,Montana | January 2003 - January 2004

This was a trade school where I learned how to run a warehouse. I also received my high school diploma and GED.
