## Work Experience

---

### **CNC Operator/Machinist**

PMI KYOTO - Illinois

December 2020 to May 2022

Hello my name is Michael J Zebell. A little background on myself. I am 20 years old, I currently work as a CNC machinist/ Set up op, I run a Haas vertical mill and a Amada HRB brake press with offline 3i programming. My current company sent me to Amada USA headquarters for machine training and 3i programming training. I revived certificates for both level 1. I have been machining for 1 year now I do my own setups, Load programs, find zeros, have a understanding on tooling, Checking parts, Reading drawings and machine regular maintenance. Outside of work I am a huge gear head and performance cars are my hobby working with my hands is a strong point for me. I worked in Texas for a few months with a shop named CCI. I was not in Texas long so I left that shop. I moved to CO where I wanted to be and now I am here looking for a long term career.

I look forward to the opportunity to speak with you guys further! Thank you for your time and consideration

• Sincerly Michael J Zebell

## Skills

---

- CNC
- CNC Milling Machine
- Calipers
- Micrometer
- Geometry
- Press Brake Machine
- Manufacturing
- Quality Inspection
- Mechanic Experience
- Blueprint Reading
- Precision Measuring Instruments
- Machining
- Calibration

- Mechanical Knowledge
- CNC Lathe
