Experience

Project Manager 2018

Self Employed, Arvada, CO

June 2015 - July

Partnered with a real estate investor to purchase, remodel and resell distressed single-family homes. Responsible for managing all aspects of home remodeling projects.

- Negotiated contracts, coordinated outsourcing and oversaw all contracted labor work.
- Maintained daily project schedule with subcontractors to ensure tasks were completed on time and within budget.
- Responsible for establishing an environment where all trades work safely, efficiently and harmoniously.
- Personally, performed non-permit required work including, minor plumbing, electrical, demo, landscaping, excavation and finished carpentry.

Plant Manager June 2015

Sheffield Metals, Denver, CO

Jan 2008 -

Managed the day to day warehouse operations of a leading company in the processing and distribution of metal products for the architectural metal industry. Responsibilities included, staffing, training, coaching and motivating warehouse personnel while maintaining strong overall employee morale.

- Worked directly with freight company representatives to negotiate rates and transit times.
- Responsible for coordinating all inbound and outbound shipments with the appropriate freight carriers both LTL and flat bed.
- Maintained and manipulated daily production schedule to meet customer demand.
- Negotiated with vendors to establish consignment stocking programs resulting in a 25% reduction in warehouse supply cost and eliminating supply outages.
- Performed weekly physical inventory counts including discrepancy reconciliation.
- Developed written Standard Operating Procedures for all routine warehouse tasks including PPE requirements. Subsequently responsible for monthly auditing and procedure revisions.
