## *Objective*

My goal is to obtain full time employment with your company in a production/manufacturing position.

## *Ability Summary*

I have experience in driving forklift, interior/exterior painting, greenhouse/plant care, restaurant/line cook, apartment building maintenance and grounds care/landscaping.

## *Education and Training*

**GED** Completed in 2000, Newberry, Michigan

## *Employment History*

*2/2013 – Present Sonic Drive-in Fort Lupton, Colorado*

Cook, Kitchen Operations April Carol, Manager

Cooking food as orders come in, prepping food for ready use, clean-up, aiding drive-thru personell, stocking inventory, thorough night and store close cleaning.

***2010-2012 Great Northern Buffet and Steakhouse Iron Mountain, Michigan***

Cook, Prep cook, Kitchen operations John Eisenhauer, Manager

Cooked orders as they came in, prepped food for ready use, maintained food buffet to constantly have fresh, hot food available for customers, cleaned kitchen and stocked food inventory, and thorough night and store close cleaning.

***2008-2011 Porte Properties Iron Mountain, Michigan***

Apartment building maintenance supervisor Harrietta Porte, Owner

General building and grounds maintenance including repairs on plumbing, electrical, and furnace. I personally installed fencing around a portion of the property and built wheelchair ramps at two entrances, as well as supervised subordinates assisting with the same and similar jobs. Other duties included installing and changing locks, painting the exterior as well as interior of apartment units after tenants moved out, and maintaining and grooming the landscape at the apartment property as well as the grounds of the owner's home.

***2006-2008 Pettibone Greenhouses Iron Mountain, Michigan***

Greenhouse attendant John Pettibone, Owner

Duties included attending to proper care and nutrition of plants, watering and maintaining a proper environment for maximum health and growth potential for plants. I also assisted with lighting and ventilation set up and maintenance for the greenhouses as well as repairs on the greenhouses themselves.
