

Keith Moses

Detroit, MI

keithmoses.km@gmail.com - 313-978-2587

Dedicated worker seeking a general labor position with a growing company.

WORK EXPERIENCE

quality inspector/floor foreman

Atier - Detroit, MI - November 2013 to Present

Responsibilities

Inspected CCB(cross car beam) parts for various manufacturing defects such as weld slag, excess weld, bad threads, missing clips and a multitude of other defects.

Skills Used

As the floor foreman it was also my job to make sure that all the data was recorded whenever we had non-conforming parts, to place a tag on each part indicating that this was a defective part.

landscaping laborer

continuum services - Utica, MI - 2013 to Present

Responsibilities

Provided contracted snow removal services to various businesses and residential areas.

Accomplishments

Remained diligent at all times while always providing quality service to our clients.

General Machine Operator

Ionia Alternative Education - Ionia, MI - 2011 to 2012

Studied blueprints, sketches, models, and other specifications and planned layout.

- Removed burrs and excess metal from machined parts, using files, sand paper, emery cloth and grinding machine.
- Fit and assembled machine parts into complete units, measured, marked, and scribed dimensions and reference points on materials and workpieces as guides for subsequent machining.
- Set up and operated machines on run trial run to verify accuracy of machining and setting and programmed control data.
- Depressed levers to activate machines.
- Maintained inventory of stock.
- Maintained and operated CNC equipment.
