+14087479264

- Hard-working CNC machinist with years of experience
- A top producer in lathe and mill machining who is able to work well under deadlines and pressure
- A key team member to keep people engaged in day-to-day responsibilities

Work Experience

CNC Machinist II

IMI Norgren Inc. ISO 9001 & ISO 14001; IATF (Automotive) - Littleton, CO
February 2018 to Present

- Set up and operate CNC mill machines such as HASS super VF-3SS, HASS VF-3, Mazak Mazatech FH-480 horizontal, and Mazak V-414.
- Set up and operate CNC lathe machines such as OKUMA LB-3000 EX, LB-4000 EX, HB-3000 EX II, and HASS lathe TL-15.
- Adjust CNC program, work offset, and tools offset to achieve product conformity and quality.
- Read and follow blueprints, engineering drawings, and other written instructions and procedures.
- Assemble the cutting tools, such as drill, tap, end mill, etc., into holders, determine offset for the tools, and input them into CNC control.
- Able to read G-code and willing to learn the Mastercam program.

CNC Lathe Machinist

ACCEL Manufacturing Inc. ISO 9001-2008 & ISO - Santa Clara, CA
October 2010 to January 2018

- Set up and operated CNC lathe machines such as OKUMA LB 15, Mazak Quickturn Nexus 200, Mazak Quickturn 250, and Mazak Multiplex 620.

Education

Bachelor of Science in Mechanical Engineering

Ho Chi Minh City University of Technology and Education
1989

Skills

- Excel in algebra
- geometry
- Able to use measurement equipment such as rule, scale, caliper, micrometer, etc.
- Execute and maintain a clean and organized work area following the 5s method: sort, set, shine, standardize, sustain

- trigonometry
- CNC
- CNC Lathe
- CNC Milling Machine
- CNC programming
- Manufacturing
- Blueprint reading
- ISO 9001
- Assembly
- CNC lathe
- Tooling
- Quality control
- Machining
- Precision measuring instruments
- Mechanical knowledge
- Computer skills
- 5S
