WORK EXPERIENCE

Assembler/Fabricator

Wipaire Inc - South Saint Paul, MN - June 2015 to October 2016

Conversion coating using an acid etch solution and an alodine solution to ensure each part is ready for priming. Prioritizing parts to make sure the parts that are "hot" are done first. Pouring an even, smooth coat of primer into struts and spreader bars, so the inside does not corrode. Fabricating said parts prior to conversion coating using various power tools and machinery. Carefully reading directions and examining the diagram for parts to make sure the part is being fabricated correctly. Assembling the actual air plane float using various power tools and following the correct procedures. Using a bucking bar and rivet gun to buck rivets and also determining which rivets need to be re-shot.

Courier Driver

Northstar Logistics - DHL - Bloomington, MN - May 2014 to June 2015

Driving a work van or cube truck. Delivering packages and envelopes in a timely manner, while also successfully completing pickups as they get called in throughout the day. Helping customers with questions and complaints while maintaining a professional demeanor and appearance. Use of the scanner properly and accurately. Driving a forklift to load and unload semis and other courier vehicles. Stacking pallets, wrapping them and placing them in the correct area. Calling in outside companies for pickups and selecting the overall cheapest and most reliable outside courier. Loading and unloading "cans" that contain packages and envelopes. Training in new associates and helping them better execute their routes.

Department Manager

Walmart SuperCenter - Apple Valley, MN - February 2011 to May 2014

Supervise associates in the produce area and occasionally other departments, making sure they are executing proper procedures in a timely manner. Troubleshooting any questions or problems they may have or customers may have. Giving clear directions on what needs to be done and how to get it done. Stocking and zoning the area. Ordering the correct amount of product needed for the expected sales via telxon. Executing mod changes. Coming up with new and unique ideas to make my product stand out to the customer. Conducting a monthly inventory and going over the results, setting expectations for sales from analyzing past results. Conducting interviews with possible future associates and determining if they would be a good fit for the job they're interviewing for. Driving a sit down and stand up forklift and picking back stocked product via telxon.

EDUCATION

High school

South Saint Paul High
