

Neil Staples

Neil Staples- Mr. Staples was the founder of Black Bear Inspections, Inc., an environmental services company, founded in October, 2003. His background of 20 plus years in construction, building maintenance, and inspection industries gives him a solid foundation of construction practices, mechanical systems and a keen awareness of construction defects. He has extensive knowledge derived from years of experience working with large commercial properties and smaller, residential properties as well as the automotive industry. His ability to understand, explain, and repair complex mechanical and computer systems make him invaluable for the technical aspects of the business. Mr. Staples has also owned and managed several businesses over the past 25 years in the highway construction and automotive industries. Mr. Staples is a state Certified Lead Based Paint (LBP) Inspector/Risk Assessor. He has conducted over 300 Lead Hazard Screens (primarily for the City of Aurora, Colorado), over 800 clearances, and over 1700 Lead Based Paint inspections using an RMD XRF LPA-1 under HUD's (Housing and Urban Development) Big Buy program. Black Bear Inspections, Inc. was a member of the Better Business Bureau and received the Gold Star Award for 0 complaints over the history of the company. Mr. Staples has also been nominated for the Torch Awards for Business Ethics, also from the Better Business Bureau. He is an honest, hard working person and will not compromise or sacrifice his personal or professional beliefs. The clients' best interest is his only concern.
