**Objective**

Seeking a position of leadership that has at my full potential using exceptional mechanical troubleshooting skills.

**Skills & Abilities**

I have the ability to work alone, or with a team. I am trained in leadership and in troubleshooting large machinery. I can work long hours and nights, and I enjoy traveling. I have a deep understanding of people resulting from psychology training through the ARMY.

**Experience:**

**Westerwood global August 2019- current**

**On site technician**

- Perform preventative maintenance on microchip automated transporters
- Train others how to perform preventative maintenance on the microchip transporters.

**Edwards vacuum systems March 2016 - MAY 2019**

**Onsite Technician**

- Troubleshoot any and all mechanical/electrical problems with units.
- Assist the shift manager in training the new hires in all aspects of the job, ranging from computer work to the functionality of the units.
- Fill out issue trackers to fix issues without machines and paperworpaperwork.

**MegaFluids May 2015 -March 2016**

**Assembly Technicians**

- Lead the assembly of slurry machines used in the production of microchips.
- Used a combination of digital displays and schematics to build the cabinets, tubing, and pneumatics that made up the slurry machines.

**Service Country: United States August 2011 - November 2013**

**Rank: E2**

- Received the equivalent of a Masters in Psychology through the ARMY.
- Performed clinical trials at the Texas state hospital for the criminally insane.
- Assisted the psychiatrist in the day to day operations of both an inpatient and outpatient psychiatric clinic

**Communication:**

- Able to listen to instructions and follow the lead of others, as well as lead inexperienced technicians through complicated procedures.

**Leadership:**

- I have lead several big jobs with Edwards Vacuums.
- While in the Army I helped run both an inpatient and outpatient psychological facility.
