### Summary of Qualifications:

I have experience in management, construction, and farm work, including mechanical repairs. I have also worked for an electrician on grain elevators and I took electrical engineering and computer science classes at SDSU.

### Experience:

2008-Present Larson Ag Ventures

Baltic, SD

#### Farm Worker

My duties are to perform general maintenance and operation of farm equipment, including field work, mending fences, and mechanical repairs to farm equipment.

2006-2009 CARQUEST Auto Parts

Brookings, SD

#### Manager

My duties included managerial obligations such as customer relations, inventory control, maintaining a fleet of vehicles, managing employees and schedules, and upkeep of the building. I generated daily, weekly and monthly corporate reports. I also attended manager meetings and trainings.

2004-2006 Nilles Construction and Contracting Services

Elkton, SD

#### Owner

My duties included reading blue prints and drawings, designing and implementing projects, organizing contracted labor to complete building projects, and customer relations. I managed a fleet of vehicles and worked with safety equipment. My specialty was residential and agricultural construction.

2002-2004 CARQUEST Auto Parts

Brookings, SD

#### Outside and Counter Sales

My duties included making sales calls and meeting with customers to address issues and concerns. I completed weekly inventory of customer stock and travelled to sales meetings.

1999-2002 Homestead Do-it Center

Brookings, SD

#### Sales/Delivery

My duties included inside sales of lumber and hardware. I pulled orders and delivered customer merchandise. In addition, I operated the forklift, maintained the storage area, and completed inventory.

1997-1999 Mid-West MicroTek

Brookings, SD

#### Testing and assembly

My duties included running and programming a CNC machine to assemble surface mount electrical boards. I also hand assembled prototypes and tested and fixed all boards prior to shipping.

### Education:

1995-2001 SDSU

Brookings, SD

I majored in electrical engineering with computer science minor.

### Personal:

My interests include farm work, construction, working on vehicles, bio-diesel, and remote control airplanes.
