Working at A to Z transmissions is very fun we removed and replace transmissions which is all hands on and very hard work. I sadly had to relocate and got a new job.

Dynamic Installation / Install

November 2017 - March 2018

Dynamic installation does a lot of work with furniture. Anything you see that's built in any office or on the outside our team probably built it for you guys. Working as an installer includes a lot of patience and communication. You mostly always have a team with you who will help you when you need help also if they need help they will expect you to be there just as well for them. This job helped me to become more open to opinions.

Cognizant/ Process Executive

November 2017 - February 2019

Cognizant is a newer company that deals with social media and moderating content. With this job you really have to have a very good set mindset and, need to take care of yourself as far as mental and physical aspects. This company was hardly new they didn't officially know where they were going as far as excelling the company. So therefore, I left the company for lack of professionalism.
