## Work Experience

---

### Lawn Maintenance Worker

November 2017 to Present

I cut big lawns , pick up sticks , rake leaves , shovel waste. Its a simple buisness but its hard work i usually spend the entire day and sometimes multiple days dealing with the clients back and front yard. I basically do whatever they ask me to get done in there yard. My usual client has a really large yard which requires hours of manual labor . I usually rake all the leaves from the large cotton wood tree then carry them to the waste pile , And when im done with that i mow the lawn and clean up any other mess in the yard.

### Field Worker

Hemp Farm - Wellington, CO

May 2020 to August 2020

My position as a field worker was basically making sure each hemp plant was watered , Moving plants inside the greenhouse , Moving plants outside the green house , Moving plants to bigger pots , And trimming the plants (topping , pruning , etc) . i spent nearly 8 hours a day working in the fields moving and watering hundreds of plants. I worked with grown men and some of them didn't even speak the same language as me but we still got out work done together and had flawless team work
