Test technician/Quality Control And Manufacturing and Production Assembler

A dedicated professional with 1 year for Electrical Assembler And 1 year for Medical Assembler experiences in manufacturing and 2 year switchgear wiring and test technician/QC, trained to policies, procedures, and regulatory requirements for providers of medical and electrical devices. Fully knowledgeable of current Good Manufacturing Practices and safety standards in cleanroom, packaging, Electrical Equipment's and warehouse environments.

Experience

July 2017-April 2019

**Switchgear wiring and Test technician/ Quality Control
Ess Metron 1505 W 3rd Ave, Denver, CO 80223**

Responsibilities

- Assembly of electrical equipment using impact, drill and hand tools,
- wiring switchgear using 3 line schematic (following procedures, quality manual,) and complete tasks in safe manner
- performs Mechanical Quality inspection (Following NEMA rating , torque check , check enclosure dimension etc...) using Drawing, layout and BOM
- performs pre-electrical (Point to Point, Checking Continuity, wire termination, crimp termination etc...) Quality inspection by using multimeter
- performs Dielectric insulation test (Hypot) and Meggering low and medium voltage equipment's and cables using calibrated equipment and 3 line schematic
- Performs Electrical operational testing/ function test (checking voltage, powering up , Testing AUX contacts , Testing logic control using RELAYS, lockout relay (LOR) and switches , testing current transformer (CT),voltage transformer (VT), control power transformer (CPT), primary and secondary breakers) using 3 line schematic
- Working on UL listed low voltage switchgears, motor control center (MCC), programmable logic controller (PLC), variable frequency drives (VFD) and power distribution center (PDC).
- Communicate with co-workers using emails
- Preparing UL listed test record
- Working on low voltage and high voltage Eaton breakers , Siemens breakers , and general motor (GE) breakers
- Working on medium voltage Eaton switchgear and Siemens Switchgear
- Experience on field service work

Experience

August 2016 - May 2017

Medical Product Assembler

Baxter Corporation Englewood 14445 Grassland drive, Englewood, CO 80112

Responsibilities

- Accurately performs assembly of products (following procedures, quality manual) and complete tasks in safe manner
- Demonstrated attention to details and accuracy (visual checks of products and preview paper work to assure quality and accuracy)
- Adhere to lean production methods such as flow production , just-in-time visual controls, good manufacturing practices (GMP)
- Opening and closing work orders using eDHR computer software system
- Using standard diagram or blue print for products before assembling
- Working as machine operator assistant
- Testing the product using standard machine

Experience

September 2015 – August 2016

Electrical Assembler

Eaton cooper lighting 18001 E Colfax Ave, Aurora CO 80011

Responsibilities

- Accurately performs assembly of products (following procedures, quality manual) and complete tasks in safe manner
- Demonstrated attention to details and accuracy (visual checks of products and preview paper work to assure quality and accuracy)
- Check painting and taking down the part and put in pallet and wrap and confirm the part using the computer and pull the part to other line using jack pallet
- Wiring and put the battery and testing and boxing the part
- Using standard diagram or blue print for products before assembling

Summary

Ousman K Ahmed
720-7891276
kumdihussien@gmail.com

- Ability to organize and prioritize tasks independently
- Ability to work effectively as a member of team
- Ability to adhere to attendance guidelines
- Ability to train others
- Ability to meet critical deadline
- Ability to take instruction and learn quickly
- Energetic , hardworking and reliable
- Ability to simplify and present an idea
- Ability to work flexible hours and overtime
- 6S to minimize product cost , and help providing a safety work place
- performs any other assignment as requested by supervisor
- Work together with co-workers to solve problems, make improvements in processes
- Treat others with respect , friendly to help create a positive working environment
- Participate in some short training courses

Skills

- Microsoft windows 98/2000/XP/7/10 /vista
- MS-office
- Communication and inter personal skills
- Time management and organizational skills
- Problem solving
- Arrangement skill
- Excellent team working skills
- Write, read ,listen and speak English language fluent (Excellent)

Education

Associate diploma
