

Parker Trevino

Brief Personal Overview-

Over my entire life I have been an entrepreneur, always finding new ways to create revenue and finding new paths to explore that are a little off beaten for instance when I was going through middle school I successfully marketed myself over 45 different clients for landscaping per summer and kept 32 of them as loyal and happy customers. It only excelled from there when I started into starting my own lacrosse stringing business and was able to cater to clients in the USA, Canada and a select few in Europe. I am extremely driven and I personally believe that it is my want and desire to succeed that will drive me to become the best version of me in the very near and far future. I thrive when dealing with people and clients it is part of what makes me ready for whatever task that should be thrown my way.

Work Experience-

- Pure Hockey Sales Associate
 - ❖ Successfully moved high priced product with efficiency and ease
