Patricia just came to the office, I told her you wouldn't be back for a while and she said she had to go, I told her to come back around 930-1000 she said she would try. I also mentioned if she wasn't going to be able to come back at 930 that she would need to call you. She said ok.

*Spoke to Alfonso
and said to Patricia

are you here?!*

Did you tell her she could leave today?

Before production started today she came to me and said, "I leave early because I have pain." I then took her off the line and said she had to go to CMG, because the other day production was done early and she was supposed to go over there. I had her speak to Rick and she said that she doesn't have enough gas to get home, and we decided to have her punch out and wait in the breakroom until the CMG office opened. She must've driven home because now she is not here. I just wanted to let you know about this incident that happened.
