PROFESSIONAL EXPERIENCE

United States Army – Various Locations

November 2014 – Present

Logistics Manager (November 2017 – Present)

- Oversaw the daily taskings and monitored the daily productivity of a team of 8 junior supply specialists
- Supervised logistical systems, policies, processes, and the coordination for a 6,000-person organization
- Analyzed, developed, and improved complex logistical workflows, processes, and supply chain management practices
- Provided sound recommendations to support programmatic decisions made by senior executive leadership
- Ensured all scheduled and unscheduled inventory inspections were conducted; trained personnel on identifying critical deficiencies and steps to execute corrective action plans
- Advised executive leadership on the planning, and execution of logistical operations
- Enhanced efficiencies through the development of systems and programs which led to an increase in the logistics readiness rate of 80%

Inventory Control Specialist (November 2014 – November 2017)

- Assisted senior leadership in the planning, coordination, and execution of all inventory accountability and supply chain requirements
- Ensured the proper logistical support of an organization consisting of more than 8,000 personnel
- Evaluated organizational challenges through process gap analysis and crafted strategic talent management and process improvement solutions
- Improved efficiencies and directly reduced logistics backlog by more than 50%
- Maintained an automated supply ordering system for accounting of organizational materials, parts, supply, equipment, and facilities worth more than \$70M with zero loss of continuity or accountability
