Fresh cut

Produce clerk

My experience at this store was in Fresh cut to begin with, I cut fruit and vegetables for the customer's convenience, which consisted of cutting fruit and putting it into cups and bowls of various sizes; I also would cut vegetables and make dinner mixes that I measured and wrapped, after that I would go to the code book and get the codes put it into our printer and print out the price tags and put it on the product that I made. I also did count in the morning and pulled all dated product and used the gun to scan out all distressed product. I also did temps on product and coolers. I was promoted to produce clerk, now when I get to work in the mornings I take temps, I cull the floor and wet wrack then fill and level my floor and my show stopper the wet wrack. I take orders for produce stock and break down the load and rotate out old for new.
