(307) 277-4733

Hard working, highly motivated team player with a track record of success with employers. Consistently received positive evaluations from previous supervisors. Possesses the ability to work independently with minimal supervision. Reliable worker willing to adapt to a variety of work environments.

## Work Experience

---

### **oiler**

Hettinger Welding, LLC - Gillette, WY

May 2008 to May 2009

One of the largest energy-industry construction firms headquartered in the West that provides electron beam welding and laser welding services. Worked independently out of a lube truck. Responsibilities and accomplishments included:

- Lubricated, oiled, and applied adhesive, and other material to machines, machine parts, and other equipment, according to specified procedures
- Check fluid levels on all machinery
- Collected and discarded worn machine parts and other garbage to maintain machinery and work areas

### **Oiler**

Washington Group - Gillette, WY

March 2005 to June 2007

Oiler • Gillette, WY • 03/05 - 06/07

American corporation which provided integrated engineering, construction, and management services to businesses and governments around the world. Worked independently out of a lube truck. Responsibilities and accomplishments included:

- Maintained equipment, made sure machinery functions properly, changed ship engine parts, operated lubricant filtering, checked gauges, identified technical issues, and performed repairs.

### **Laborer**

Gilligan's Methane Pipeline/L&L Mine Services - Gillette, WY

February 2002 to March 2004

These companies were under the same owner - worked on L&L first, at the mine, and then switched to Gilligan's, laying pipe, in 2003. Responsibilities and accomplishments included:

- Supervised a crew of four at the mines, and our goal was to complete the job as fast and as efficiently as possible, so we could

move on to the next job. We were responsible for cleaning the mining shovels and removing all the grease, so the site would pass inspection on a daily basis.

- At Gilligan's, responsibilities were to dig holes, cut and move pipes into trenches, align and join them, and test the pipes before putting them online. Our crew would also perform lawn maintenance on occasions.

### **Concrete Laborer**

Blattner Contractors - Avon, MN  
October 2000 to June 2001

Blattner is a company that has emerged as a leader in multiple areas of construction. Including heavy civil, mining and railroad.

During my time at the company I was part of a team of about 15 people doing concrete labor.

Responsibilities and accomplishments included:

- Installed wire mesh, poured concrete, leveled surfaces, applied finishing techniques, and performed maintenance work.
- Operated and cleaned power tools such as mixer, jack hammer, and power hose.

## Education

---
