

1030 S. MARSHALL ST. LAKEWOOD, CO 80226  
CELL PHONE NUMBER 720-985-6373

# RAY MONETTE

## OBJECTIVE

---

I am looking for a company that I can help with my 24 years of machining experience. I am looking for a company that will also allow me to continue to learn more about the trade and different aspects of the business.

## SUMMARY OF QUALIFICATIONS

---

24 years of experience. I have all my own tools, including hand tools and measuring equipment. I also have a number of special mics such as blade, point and hub mics. I am a hard worker who understands that not only do the parts need to be finished on time, they also need to be to print and done correctly the 1<sup>st</sup> time, every time.

## WORK EXPERIENCE

---

May 96 to Feb 98      TyDan Inc.      Littleton, CO.

- *Machinist*
- Details of position:
- Set-up and production on CNC Mills and Lathes.
- Some shipping and scheduling.
- 1<sup>st</sup> piece and in process inspection.
  
- Reason for leaving: Company relocated to TX.

## WORK EXPERIENCE

---

Feb 98 to Mar 03 Ponderosa Inc./Stewart Precision Machining 303-307-4800 Denver, CO.

- *Machinist*
- Details of position:
- 2 years as 2<sup>nd</sup> shift supervisor.
- Set up and operation on CNC Mills and Lathes. Assignment of work duties.
- 1<sup>st</sup> article inspection. Some programing , scheduling, and shipping. Machine maintenance and repair.  
Proving of programs, prototyping, and 1<sup>st</sup> time runs.
- 1 ½ years as QC Inspector.
- 1<sup>st</sup> article and final inspection. Running of special production jobs.
- Qualifying of subcontractors. Purchasing of measuring equipment and gauging.
- 1 ½ years as 3<sup>rd</sup> shift supervisor.
- Duties much the same as time as 2<sup>nd</sup> shift supervisor.

Reason for leaving: I was doing more rework that was generated by the other shifts then actual production.

## WORK EXPERIENCE

---

Mar 03 to Mar 11 Weltkswiss Arvada, CO.

*Job Title Machinist*

- Details of position:
- Set up and Production on CNC Mill and Lathes. Manual machining on mill and  
manual lathe. Making of fixtures. Some programming on both mills and lathes. Making tooling plates for both lathes and mills.
- 1<sup>st</sup> piece and in process inspection.
- Reason for leaving: Company closed the doors.
- Was again working for Ponderosa/ Stewart Precision Machining from July of

2007 as the 3<sup>rd</sup> shift (weekend) supervisor. Held that position until late 2015, then moved to tool purchasing.

- Ponderosa was purchased by another company in September of 2016 (Stewart Precision Machining). At that point I took over material purchasing, inventory, as well as inventory control until I left in August of 2019.
- Reason for leaving: A new plant manager was brought in, and micro-managed everything to a point I couldn't even order safety glasses without a signed request. Request would sit on his desk for over a week. This included material to be brought in.

## WORK EXPERIENCE

---

Mar 11 to Present     InTrex Aerospace     303-237-7282  
Thornton, CO.

- *Machinist*
- Details of position:
- Set-up and production on CNC Lathes.
- Program editing at the machines.
- Training and support of other, less experienced personnel.
- Work on 1<sup>st</sup> time runs.
- 1<sup>st</sup> piece and in process inspection
- 2 years as acting 2<sup>nd</sup> shift supervisor.

## WORK EXPERIENCE

---

February 2020 to July 2020     Stewart Precision Machining 303-307-4800     Denver, CO.

Purchasing: Back part time to help fix the tooling and material issues they are having. Plant manager has been let go. Tooling and material

had not been ordered for several weeks

## EDUCATION

---

Ramona High School      1984-88  
Ramona SD

4 years in USMC.
