reed.fowler7@gmail.com | (423) 202-2940 | 831 Coronado Avenue, Fort Collins, CO 80526

Profile

Ownership driven young professional with 2 years progressive advancement in management, purchasing, data modeling, data visualization, and robotic process automation. Recognized consistently for performance excellence and contributions to purchasing analytics and departmental efficiency. Seeking a growth opportunity to lend my skills and knowledge towards.

Experience

Procurement Analytics Manager – JBS USA – Greeley, CO | (04/2019 - 10/2020)

- Lead/trained a team of 3 business analysts/developers.
- Spearheaded the transformation of the analytics landscape for ~\$4B annual spend from limited scope, flat file backed excel files to a full suite of self-service dashboards - providing deep insight into all aspects of the procurement process.
 - Increased published data model/dashboard count from 3-20 in 2 years.
 - Aggregated data to track and measure all procurement goals on an as need or monthly basis.
- Planned, oversaw, and contributed to Qlik and RPA development to meet yearly cost savings and efficiency goals.
 - ~\$150K cost savings projects annually/14,000 person-hours automated in 1 year.

Procurement Support Analyst– JBS USA – Greeley, CO | (10/2018 - 04/2019)

- Became advanced in Qlik and Automation Anywhere development.
- Redesigned initial reporting structure to allow deep-dive analysis and more easily identify opportunities for corrective/preventative action.
 - Designed and built processes/dashboards to automate and audit departmental savings calculations.
 - Created an SRM complete with survey and quantitative data to drive vendor accountability and support positive vendor relations.
 - Created an ad hoc report with 5 years of purchasing data readily available and customizable to meet any reporting requirement.
 - Automated contract and sourcing updates using automation anywhere for the entire procurement department.
- Identified many more business problems and worked towards a solution using analytics/automation.

*Various serving/bartending positions while in college
