Work Experience

Roofer

DOUGLAS COLONEY LLC

March 2020 to April 2020

My job as a commercial roofer was to haul all roofing supply up to the roof and make sure we had enough material to perform the job. I was also in charge of removing all if any trash material from the roof or working spaces to ensure a safe work place.

Warehouse

elite staffing

December 2020 to March 2020

I was a contractor for Waste Management's Recycling warehouse, where I would work on a sorting line. Basic duties were to pull certain items off the line in order to be recycled and used again. Also I would perform basic warehouse clean up after each and every shift.

Warehouse

PRESTIGE OFFICE SUPPLIES

March 2015 to May 2018

My job was to deliver and install office furniture all over the Denver metro area in a timely manner. I would build anything from your Basic office cubical to official private offices and we would perform demolition's on new projects as well.

Welder Helper

CARLY'S PIPE AND WELDING LLC

June 2012 to January 2015

My main responsibilities where to make sure the welder's had everything that they needed in order to perform their duties. I would also help clear ditches and lay welded pipes in the ground to make sure we were always progressing.

Housemen

GREEN GABLES COUNTRY CLUB

September 2010 to April 2012

I was in charge of making sure there was enough tables and chairs for each venue hosted by the club and also made sure that each table was set up with enough dinner ware for all guest. I would also be in charge of all the after venue clean up's making sure everything got put back into the place.

Warehouse

SHAMROCK DISTRIBUTION CENTER

September 2010 to April 2012

My main duties were to pull specific items from an order and wrap, tag and load all products into a semi truck trailer. I was also responsible for unloading product from the trailer and restocking certain shelves inside the warehouse.

WAREHOUSE, AZZ GALVANIZING

September 2010 to April 2012

My responsibilities and job duties was to tie up all metal material properly and safely in order to dip them into a zinc coating. I would also take part in the clean up process which includes working with a grinder to get rid of any drips that may have occurred during the Galvanizing process. It was my responsibility to ensure I kept a clean safe work place for me and other employee's.

Rail Road Tech

western sugar company

April 2008 to August 2010

My main job Duties would to pull empty Train cars into the garage and fill them up with sugar. I was also responsible for sealing and tagging each and every train car that came in.
